1 TECHNICAL FEATURES AND MAIN ADVANTAGES

DOLPINGER®
Ultrasonic Dolphin Saver

MAIN ADVANTAGES

- ✓ **Operational 24/7**
Provides continuous operation 24 hours a day (varies by model).
- ✓ **Designed and manufactured in Türkiye.**
- ✓ **Specially designed for marine conditions.**
- ✓ **Maintenance-free compact structure.**
- ✓ **Corrosion-resistant and shock-resistant body.**
- ✓ **Efficient work with intelligent sensor and automatic operation.**
- ✓ **Cost Effective:**
Helps prevent the loss of power and labor caused by damaged nets and equipment. Increases your return on investment.
- ✓ **Increases Safety at Sea:**
Does not cause harm to marine life. The acoustic barrier it creates keeps them at a safe distance.
- ✓ **Saves Time:**
Its intelligent sensors emit easy-to-detect sounds underwater. It does not create additional workload during operation.
- ✓ **1-Year Product Replacement Warranty:**
Protects the product against manufacturing defects and ensures product replacement.

TECHNICAL SPECIFICATIONS

	Effective For	: Tunas, Dolphins, Porpoises		Dimensions	: Ø70 mm × 230 mm
	Frequency Range	: 5 – 400 kHz		Weight	: 1000 g
	Sound Pressure Level	: 175 dB (1 µPa @ 1 m)		Power Adapter	: 12 VDC / 1.5 A
	Operating Time	: Approximately 10 hours		Charging Time	: Approximately 3 to 8 hours (varies by model)
	Minimum Depth	: 5 meters		Battery Type	: Li-ion
	Maximum Depth	: 250 meters		Battery Capacity	: 5800 to 20.000 mAh (varies by model)
	Test Pressure	: 3 MPa (30 Bar)		Battery Life	: 1000 charge/discharge cycles

2 CHARGING, MAINTENANCE AND USE

For the Long Life of Your DOLPINGER® Device

1 CHARGING INSTRUCTIONS

1. Plug the charger adapter into the outlet.
2. Connect the charger cable to the device.
3. The LED indicators will be controlled.
4. Charging time: Approximately 6 – 8 hours.

Ensure full charge before use.

Do not use the device while charging.

2 LED INDICATORS

LED STATUS

MEANING

Red LED is on

Charging

Green LED is on

Charging Completed

Red and green LED flash alternately

Battery issue: device is charging

No LED is on

Check the charger adapter.

Note: Even if the device is fully charged and the green LED turns on, please unplug the charger after maximum 8 hours. Otherwise, unplug the charger before 8 hours.

3 BATTERY LIFE

- The long-life Li-ion battery cannot be replaced by the user.
- Do not use the device if you suspect the battery is swollen or damaged.
- Do not use the device if the charger cable is damaged or shows signs of wear.

4 STORAGE CONDITIONS

-10°C
+40°C

Store the device in an environment between -10°C and +40°C.

Keep away from direct sunlight and heavy rain.

Store in a dry and clean environment.

If you will not use the device for a long time, store it with a full charge.

5 CLEANING

Rinse the device with fresh water.

Do not use chemical cleaners.

Do not use high-pressure water or steam.

Wipe with a soft cloth and dry.

6 MAINTENANCE

DOLPINGER® devices are designed to be maintenance-free.

Periodic inspection of the device mounting and cable connections is recommended.

For any damage, contact our technical service and support team.

7 IMPORTANT

Please remove the charger at the latest half an hour after the green LED turns on.

Please unplug the device before charging.

The battery inside the device cannot be replaced.

TECHNICAL SERVICE

INSTALLATION STEPS

1

CHECK THE DEVICE

Before installation, make sure the device is in good condition and fully functional.

2

INSTALLATION ORDER

Install the device on the net as shown below:
Top of the net → 1 meter up → DOLPINGER®
→ 1 meter up → Floating buoy
Pay attention to the distances.

3

KEEP THE DISTANCE

Leave a maximum distance of 400 meters between DOLPINGER® devices.
If the distance is longer than 400 meters, use an additional device.

4

FINAL CHECK

After installation, make sure to:

- Check the connection.
- Check the direction of the device.
- Check the tightness of the ropes.

LED STATUS INDICATORS

Red LED is flashing

Charging

Green LED is flashing

Charging Completed

Red and green LEDs flash alternately

Battery issue: device is charging

No LED is on

Check the charger adapter

Note: Even if the device is fully charged and the green LED turns on, please unplug the charger after maximum 8 hours. Otherwise, unplug the charger before 8 hours to protect the battery.

STORAGE CONDITIONS

- If you will not use the device for a long time, store it with a full charge.

BATTERY LIFE

- The long-life Li-ion battery cannot be replaced by the user.
- Do not use the device if you suspect the battery is swollen or damaged.
- Do not use the device if the charger cable is damaged or shows signs of wear.

IMPORTANT WARNINGS

Do not cover the device with nets.

Do not hit or apply impact.

Do not use harmful chemicals.

Leave 400 meters distance as recommended.

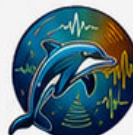

Do not open the device. No user serviceable parts.

RECOMMENDED POSITION:
1 DOLPINGER® ≈ 400 METERS
PROTECTION AREA

The protection area may vary depending on the length of the net used.

DOLPINGER®
ULTRASONIC DOLPHIN SAVER

Dolpinger® device is guaranteed for **1 year** against manufacturing defects.

The warranty period starts from the invoice date.

WARRANTY COVERS

- ✓ Manufacturing and material defects
- ✓ Failure to operate under normal usage conditions
- ✓ Parts determined to be faulty as a result of inspection by our authorized technical service

WARRANTY DOES NOT COVER

- ✗ Use contrary to the user manual
- ✗ Physical damages such as impact, drop or crushing
- ✗ Damages caused by unauthorized persons opening the device or making modifications
- ✗ Natural disasters such as flood, fire, lightning

DOCUMENTS REQUIRED FOR WARRANTY

Please keep the following documents in order to benefit from the warranty service.

- ☐ Invoice (Proof of Purchase)
- ☐ Warranty Certificate

Keep your invoice and warranty certificate during the warranty period of your device.
